COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH. CROUP, ASTHMA, AND CONSUMPTION.

Many years of true, increase of true and the public confidence in this medicine, has won for it an approclation and notoriety by far exceeding the most ranguine expectations of its friends. Nothing but its intrursic virtues and the unmit sakable benefit conferred on thousands of sufferers, ould originate and maintain the reputation it employs. While many inferior remedies thrust upon the community, have failed and been discorded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgetten.

forgotten.
While it is a fraud on the public to pretend that any one

While it is a fraud on the public to pretend that any one medicine will infallibly cure—etill there is abundant proof that the Cherry Pectoral dose not only as a general thing, but almost invariably cure the maladies for which it is employed. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American Pearant, to the Palacoc of European Kings. Throughout this entire country, in every State, city, and indeed sinuse every haulet it contains. Cherry Pectoral is known as the best remedy estant for disasses of the throat and lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Paysicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, Cherry Pectoral is introduced, and in constant use in the Armies, Hospitals, Alma Honses, Public Institutions, and in demestic practice, as the surest remedy their estending Physicians can employ for the more dangerous a fictions of the lungs. Also in milder cates, and for children it is safe, please ant and effectual to cure. In fact, some of the mest flattering testimonials we receive have been from percentagement found it efficacious in case particularly incident at the children's.

The Caerry Pectoral is manufactored by a practical Comiss, and every sure of the most flattering testimonials we receive have been from percentagement found it efficacious in case particularly incident at the children's.

MR. EMERSON'S SCHOOL HANNIBAL.

From Jungs Van Swearinger and Others — I concur fully with the sentiments in the certificate of President Pierce, of the qualifications of Rev. D. Emerson to instruct in "any department of education," and chearfully add, that I have been a constant patron of his school, taught here since its organization, and that it is surpassed by note and equalled by few within my knowledge for efficiency and government. THOMAS VAN SWEARINGEN."

Hannibal, July 26, 1853-dawly READ THIS!!

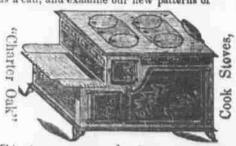

FILLEY'S STOVES in the last three years; since which time they have been gradually increasing the manufacture and sale of them; and although, owing to their being light and smooth, and something new, some little difficulty attended the sale and use at first, yet by always making Stoves and Castings of the best quality of Scotch Pig and Missouri Mountain Iron, they have proved to withstand fire better than any other Casting made in the western country. The furnace castings and hollow-ware particularly, have been superseded by it, wherever it has been brought into use, and always given satisfaction. Having lived here a number of years, and being permanently located here, purchasers can rely on our guarantee as to the quality of the article sold by us; and as to the operation of our celebrated Prize-Premium Cook Stove, just read the certificates of those who have used them, and are using them now. And another advantage a purchaser will have in buying a St. Louis stove of us, he would not only be getting a stove made of the best material in the world, but he can at any time get an odd piece or plate without any charge, by letting us know that such is wanted, as all our stoves are warranted, and, in case of imperfection, the article will be promptly made good to the purchaser, which he will not find the case with Cincinnati, Chicago, Pittsburgh, and Eastern made Stoves, as you cannot get any odd Pieces. Even if they were warranted, it would be impossible to get old plates from such a distance.

We, the undersigned, having used the St. Louis Stoves manufactured by G. F. Filley, of St. Louis, and sold by CARTER W. BRYAN. at Hannital, Mo., take pleasure in recommending them to the public as superior in point of draft, durability, economy, convenience and ease of regulation, to any stove which we have

NEW COOK STOVES!! Persons wishing to buy stoves, should give

This stove possesses advantages over common ments in draft.

This stove was patented September, 1852, and wherever they have been used, have given general satisfaction. This stove weighs some forty pounds more to the number than any other stove ever brought to this city. The plates in them are from one-half to three-fourths of an inch in thickness, No. 1 weighs over 200 pounds. We warrant them all sgainst fires. These stoves have a Patent Hot Air Flue, which carries the heat that is generated under the fireplate down the front part of the stove, between two thick plates to the draft at the bottom of the stove. C. W. BRYAN.
